

RESOLUTION NO. 2021- 7

RESOLUTION OPPOSING THE FEDERAL GOVERNMENT'S "30 X 30" LAND  
PRESERVATION GOAL

STATE OF NEBRASKA

COUNTY OF THOMAS

At a regular meeting of the Board of County Commissioners for Thomas County, Nebraska, held at the Thomas County Courthouse, Thedford NE on April 6, 2021 there were present:

Pamela S. Moody  
John B. Seeley  
James L. Purdum

WHEREAS, Thomas County is a legal and political subdivision of the State of Nebraska for which the Board of County Commissioners ("Board") is authorized to act; and

WHEREAS, Thomas County containing about 456,960 acres of land situated in West Central Nebraska; and

WHEREAS, the federal government owns 17% of the land within the County, and the Nebraska National Forest, Bessey Ranger District, Halsey NE., U.S. Forest Service; are responsible for managing over 79,918 acres of these federal lands as illustrated in *Exhibit A*, attached hereto; and

WHEREAS, approximately 2,565.40 acres .56% of privately owned land in Thomas County are also already protected with perpetual conservation easements: "as illustrated in *Exhibit B*, attached hereto"; and

WHEREAS, designating lands as wilderness does not assure its preservation. Left in an undisturbed or natural state, these lands are highly susceptible to wildland wildfires, insect infestation and disease, all of which degrades the natural and human environment; and

WHEREAS, because of the predominance of federal land in Thomas County, the well-being, health, safety, welfare, economic condition, and culture of the County, its businesses, and its citizens depend on private land ownership and the use of these resources; and

WHEREAS, many of Thomas County's businesses and its citizens are involved in or otherwise depend on industries that utilize federal lands and their resources, including the livestock grazing, recreational industries, hunting and other outdoor recreation; and

WHEREAS, these industries are important components of the Nebraska economy, and are major contributors to the economic and social wellbeing of Thomas County and its citizens; and

WHEREAS, on January 27, 2021, President Joseph R. Biden, Jr., issued Executive Order 14008 entitled Tackling the Climate Crisis at Home and Aboard (86 Fed. Reg. 7,619); and

WHEREAS, in Section 216 of Executive Order 14008, President Biden directed the Secretary of the Interior, in consultation with the Secretary of Agriculture and other senior officials, to develop a program to conserve at least 30 percent of the lands and waters in the United States by 2030, which is called the “30 x 30” program; and

WHEREAS, under the 30 x 30 program, some 680 million acres of our Nation’s lands would be set aside and permanently preserved in its natural state, preventing the productive use of these lands and their resources; and

WHEREAS, there is no constitutional or statutory authority for the President, the Department of the Interior, the Department of Agriculture, or any other federal agency to set aside and permanently preserve 30 percent of all land and water in the United States, and no such authority is referenced in Executive Order 14008; and

WHEREAS, the 30 x 30 program, if implemented, is likely to cause significant harm to the economy of Thomas County, and injure the County’s businesses and its citizens by depriving them of access to public lands and national forest system lands and preventing the productive use of these lands’ resources; and

WHEREAS, the withdrawal of some 680 million acres of federal lands from multiple use and placement of such lands in permanent conservation status will cause dramatic and irreversible harm to the economies of many western states, including Nebraska, and in particular rural counties such as Thomas County whose citizens depend on access to federal lands for their livelihoods; and

WHEREAS, the 30 x 30 program, if implemented, will conflict with the plans, policies and programs of Thomas County as expressed in Thomas County Comprehensive Plan, adopted November 19, 2019 which obligates the federal government to coordinate its policy development with Thomas County as also required by the Federal Land Management and Policy Act (FLPMA) and the National Forest Management Act (NFMA); **EXHIBIT C**, hereto attached; and

WHEREAS, Executive Order 14008 at 216(a) directs the Secretary of the Interior, in consultation with other relevant federal agencies to “submit a report to the Task Force within 90 days of the date of this order recommending steps that the United States should take, working with State, local, Tribal, and territorial governments, agricultural and forest landowners, fishermen, and other key stakeholders, to achieve the goal of conserving at least 30 percent of our lands and waters by 2030.”

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Thomas County, Nebraska, as follows:

1. The Board opposes the 30 x 30 program, including its objective of permanently preserving 30 percent of the Nation’s lands in its natural state by 2030, or any similar program that will set aside and prevent the productive use of millions of acres of our lands.

ATTEST:

Lorissa Hartman Lorissa Hartman  
THOMAS COUNTY CLERK

BOARD OF COUNTY COMMISSIONERS OF THOMAS COUNTY, STATE OF NEBRASKA

By: Pamela S. Moody Pamela S. Moody, Chairman

Upon motion duly made and seconded the foregoing Resolution was adopted by the following vote:

2. The Board further opposes the designation of public lands and national forests in Thomas County as wilderness, wilderness study areas, wildlife preserves, open space, or other conservation land, thereby restricting public access to such lands and preventing the development and productive use of the resources on or within such lands.

3. The Board supports the continued management of the public lands and the national forests under principles of multiple use and sustained yield, recognizing the Nation's need for domestic sources of minerals, energy, timber, food, and fiber, and in careful coordination with Thomas County to ensure consistency with County land use plans and land management policies, as required by law.

4. The Board supports maintaining and enhancing public access to public lands and national forests and opposes road closures, road decommissioning, moratoria on road construction, and other limitations on public access for the purpose of fulfilling the 30 x 30 program's objectives.

5. The Board recognizes and supports the State of Nebraska water rights system, including the doctrine of prior appropriation and other state laws and programs governing water rights and water use, and opposes any federal designation of waters and watercourses within the County that would impair or restrict water diversions and uses authorized under Nebraska law.

6. The Board supports reasonable national, regional, and global greenhouse gas emissions policies and goals that are comprehensive, practical, cost-effective, and do not unnecessarily single out specific industries or activities, but opposes the use of global climate change as an excuse to set aside large tracts of land as preserves or open space to fulfill the 30 x 30 program's objectives.

7. The Board maintains that the designation of public lands and national forest lands as wilderness, wilderness study areas, wildlife preserves, open space, or other conservation land to fulfill the 30 x 30 program's objectives may lawfully occur, if at all, only through the planning process mandated by the Federal Land Management and Policy Act (for public lands) or the National Forest Management Act (for national forest lands), including public notice and an opportunity to comment, analysis and disclosure of the impacts of such land acquisitions on the well-being, health, safety, welfare, economy, and culture of Thomas County, its businesses, and its citizens, and careful coordination with Thomas County to ensure consistency with County land use plans and land management policies.

8. The Board also maintains that any non-federal lands (private ownership lands) or other rights that are acquired to fulfill the 30 x 30 program's objectives should be acquired only from willing landowners and for the payment full and fair market value for all rights and interests acquired, and not through regulatory compulsion, and only after analyzing and considering the impacts of such land acquisitions on the well-being, health, safety, welfare, economy, and culture of Thomas County, its businesses, and its citizens.

9. The Board shall send a copy of this Resolution to the Department of Interior, Department of Agriculture and all other relevant Federal and State agencies; and

DATED this 6 day of April, 2021.
