¹ Tallow is defined by 21 CFR 589.2001(b)(5) as the rendered fat of cattle. Tallow that contains more than 0.15% insoluble impurities is considered to be an animal protein prohibited in ruminant feed in 21 CFR 589.2000(a)(1). Such tallow should be labeled with the cautionary statement, "Do not Feed to Cattle or Other Ruminants."

² Excludes tallow that contains more than 0.15% insoluble impurities.
