BUFFER STRIP ACT

Administration: The Buffer Strip Act is administered by the Nebraska Department of Agriculture, State Office Building, 301 Centennial Mall South, Lincoln, Nebraska 68509. Telephone: (402) 471-2394, and the Natural Resources Districts.

Revisions: These statutes were last revised during the 2009 session of the Nebraska Legislature.

Rules: A regulation has been promulgated under these statutes, known as Title 25, Chapter 4, Nebraska Administrative Code - Buffer Strip Regulations.

Section Subject
2-5101 Act, how cited.
2-5102 Legislative findings.
2-5103 Terms, defined.
2-5106 Buffer Strip Incentive Fund; created; use; investment.
2-5107 Buffer strip; creation; application for reimbursement; procedure; district; duties.
2-5108 Buffer strip reimbursement; department; duties.
2-5109 Contractual agreement; terms; payments; renewal.
2-5110 Contractual agreements; compliance; effect.
2-5111 Rules and regulations; department; powers and duties.

2-5101. Act, how cited.

Sections 2-5101 to 2-5111 shall be known and may be cited as the Buffer Strip Act.

2-5102. Legislative findings.

The Legislature finds and declares that:

(1) Buffer strips help to reduce the levels of sediment, crop nutrient, pesticides, and other chemicals introduced into surface water resources; and

(2) Both wildlife and people benefit as a result of improved water quality.

2-5103. Terms, defined.

For purposes of the Buffer Strip Act:

(1) Buffer strip means a strip of vegetation used to intercept or trap field sediment, organics, pesticides, and other potential pollutants before they reach surface water;

(2) Department means the Department of Agriculture;

(3) District means a natural resources district; and

(4) Person means any individual, partnership, firm, corporation, company, society, or association, the state or any department, agency, or subdivision thereof, or any other public or private entity.

2-5106. Buffer Strip Incentive Fund; created; use; investment.

The Buffer Strip Incentive Fund is created. Proceeds raised from fees imposed for the registration of pesticides and earmarked for the fund pursuant to section 2-2634, proceeds raised from federal grants earmarked for the fund, and any proceeds raised from public or private donations made to the fund shall be remitted to the State Treasurer for credit to the fund. The fund shall be administered by the department to maintain the buffer strip program and for expenses directly related to the program, including necessary expenses of the department in carrying out its duties and responsibilities under the Buffer Strip Act, except that transfers may be made from the fund to the General Fund at the direction of the Legislature. The annual cost of administering the buffer strip program shall not exceed ten percent of the total annual proceeds credited to the Buffer Strip Incentive Fund. Such administrative costs shall include funds allocated by the department to the districts for their administrative costs. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

2-5107. Buffer strip; creation; application for reimbursement; procedure; district; duties.

(1) Any person who desires to create a buffer strip adjacent to surface water on his or her property may submit an application for buffer strip reimbursement to the district. The application shall include the location of the proposed buffer strip and the total number of acres to
be included in the proposed buffer strip. If the person will receive any money from any other
source for use of the land proposed for the buffer strip, the application shall include the identity
of the source or sources, the amount of money to be received, and the length of time the money
will be received.

(2) All applications for buffer strip reimbursement under the Buffer Strip Act shall be
submitted by a date established by rules and regulations adopted and promulgated pursuant to
section 2-5111.

(3) Upon receipt of an application for buffer strip reimbursement, the district shall review the
application for compliance with the requirements set forth in the rules and regulations adopted
and promulgated pursuant to section 2-5111.

(4) If the district determines that the application is not in compliance with the requirements
established by the department, the district shall inform the applicant of the deficiencies in the
plan and, if feasible, recommend an alternate plan which complies with the rules and regulations
of the department. The applicant may then submit a new application consistent with the
recommendation of the district.

(5) If the district determines that the application is in compliance with the standards
established by the department, the district shall forward the application to the department. The
application shall include a written evaluation of the applicant's compliance with the
requirements set forth in rules and regulations adopted and promulgated pursuant to section 2-
5111.

2-5108. Buffer strip reimbursement; department; duties.

(1) Upon receipt of the application for buffer strip reimbursement, the department shall
review the application for compliance with the rules and regulations adopted and promulgated
pursuant to section 2-5111.

(2) If the department determines that the application is not in compliance with the rules and
regulations adopted and promulgated pursuant to section 2-5111, the department shall inform the
district of the deficiencies. The district shall then inform the applicant of the deficiencies and
allow the applicant to submit a new application.

(3) The department shall determine which applications are in compliance with the rules and
regulations adopted and promulgated under section 2-5111 and shall compile a list of all such
applications according to the factors set forth in the rules and regulations. From such prioritized
list, and based upon the amount of funds available, the department shall notify the districts
which applications are approved. Funds approved by the department for buffer strip
reimbursement shall only be for buffer strips created after January 1, 1996. The total amount of
funds available for all new and existing agreements shall not exceed the projected available cash
balance of the Buffer Strip Incentive Fund for the entire term of the agreements.

2-5109. Contractual agreement; terms; payments; renewal.

(1) Upon approval of an application by the district and the department, the district shall enter into a contractual agreement with the applicant for the land included in the buffer strip. The agreement shall include a provision that the applicant shall maintain the buffer strip in accordance with the approved plan during the term of the rental agreement. The agreement may also include a provision that the applicant shall not apply specified fertilizers on buffered fields between designated dates. Failure to maintain the buffer strip in accordance with the plan shall be cause for all future payments under the agreement to be forfeited and shall be cause for the recovery by the department of any payments previously made. Upon submission of a copy of the agreement to the department, it shall authorize the State Treasurer to transfer funds to the district from the Buffer Strip Incentive Fund in an amount equal to the total amount of funds due for the agreement in that district that year. Such transfer shall be made as soon as funds are available.

(2) If the applicant does not receive reimbursement from any other source for the land included in the buffer strip, the district shall pay the applicant annually an amount not to exceed two hundred fifty dollars per acre or fraction thereof included in the buffer strip.

(3) If the applicant receives reimbursement from any other source for the land included in the buffer strip, the district shall pay the applicant annually an amount not to exceed two hundred fifty dollars per acre included in the buffer strip, minus the amount of the other reimbursement.

(4) The actual amount of any payment made to an applicant under subsection (2) or (3) of this section shall be determined by the district using the sliding scale provided in rules and regulations adopted and promulgated pursuant to section 2-5111. Such amount shall be included as part of the application submitted to the department.

(5) Contractual agreements pursuant to this section shall be for a minimum term of five years and a maximum term of ten years.

(6) Following the expiration of any contractual agreement pursuant to this section, the applicant may apply to renew the agreement. Any application for renewal of an agreement shall be made in accordance with sections 2-5107 to 2-5109 and shall be considered with any new applications.

2-5110. Contractual agreements; compliance; effect.

Each district shall take reasonable steps to ensure that contractual agreements pursuant to section 2-5109 are complied with by the applicant. The department shall adequately reimburse the districts for the costs of such purposes. If the applicant does not comply with the terms of the agreement, the district shall discontinue any payments to the applicant.

2-5111. Rules and regulations; department; powers and duties.

The department shall adopt and promulgate such rules and regulations as are necessary for the enforcement and administration of the Buffer Strip Act. The rules and regulations shall include, but not be limited to, rules and regulations providing for:

(1) Types of vegetation suitable for buffer strips;

(2) Appropriate width of buffer strips;

(3) Types of surface water appropriate for protection by buffer strips;

(4) Soil types and classifications appropriate for protection by buffer strips;

(5) A sliding scale, based on land value and potential environmental benefit, to determine the amount to be paid as payment under the act for the buffer strip;

(6) An index to rank those applications that meet the technical requirements of the act to determine priority of funding. Such index shall, at a minimum, identify the factors that will be considered in scoring an application and assign a numerical value for each of those factors. In addition to those items listed in subdivisions (1) to (5) of this section, such factors shall also include an evaluation of each application for the water quality benefits from reduced soil erosion and runoff, the on-farm benefits of reduced soil erosion, and the cost per acre of an application. Priority may be given to those applications which create buffer strips at the lowest possible cost, assuming environmental protection benefits are equal in other respects;

(7) The minimum requirements necessary for any contractual agreement entered into between a district and applicant;

(8) A project map of the buffer strip program created by the Buffer Strip Act showing the location of buffer strips in each watershed; and

(9) Any other rule and regulation deemed appropriate for implementation of the Buffer Strip Act.
