

Report on Acres Detasseled or Rogued in Nebraska 2026

Pursuant to the requirements of Neb. Rev. Stat. §48-1715, the Director of Agriculture hereby publishes the following report on the Department of Agriculture's (NDA) website of an aggregate listing of the following **information provided by seed corn producers** pursuant to subdivision (1)(b) of this section for each crop year:

(a) The total number of acres of seed corn planted in this state:

127,570.5 acres

(b) The total number of acres of seed corn detasseled by certified exempt contractors:

20,805 acres

(c) The total number of acres of seed corn rogued by certified exempt contractors:

151,153 acres

(d) The total number of acres of seed corn detasseled by nonexempt contractors:

21,653 acres

(e) The total number of acres of seed corn rogued by nonexempt contractors:

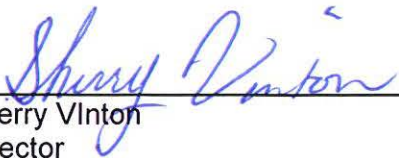

94,867 acres

(f) The total number of acres of seed corn for which seed corn producers did not utilize detasseling or roguing services by any farm labor contractor:

Section 48-1715 does not require producers to provide NDA this information.

From the information provided, producers did not report detasseling services for 85,112.5 acres.
