No PRV Vaccine Used
These Animals Have Never Been Fed Raw Garbage
All Animals Were Born & Raised In Kansas
All Animals Have The Id Of K S 59

LAMBS

This Lamb Is Clinically Free From The Signs Of Infectious Diseases, Including Foot Rot, Sore Mouth, And Caseous Lymphadenitis. This Lamb Originated From A Flock In Which Scrapie Has Not Been Diagnosed In The Past Five Years.

VIRGIN STATEMENT

All animals listed are known Virgin and have not been exposed.

ADDITIONAL TRICH/VIRGIN STATEMENT (only for Bulls UNDER 18 mo of age)

The Breeding Males Represented On This Cvi Are Not From A Known Positive T. Foetus Herd And Have Tested Negative For Trichomoniasis By A Test Or Tests, Approved By The Department, Within Sixty (60) Days Prior To Importation. Bulls Are Known To Be Virgins.

LIVESTOCK MARKETS (for feeding purposes only – if going to Iowa they also need the Feeding Statement Below)

These Cattle Originate From A Non-Brand Area Of Origin and are for Feeding Only. Beef Feeders Less Than 18 Mths Of Age - No Individual Ids. To The Best Of My Knowledge, The Animals Represented On This Cvi Have Not Originated From A Premises Or Area Under Quarantine For Vesicular Stomatitis Or A Premises On Which Vesicular Stomatitis Has Diagnosed In The Last Thirty (30) Days. I Have Examined the Animals And Found No Signs Of Vesicular Stomatitis.

FEEDING STATEMENT *IOWA*****

These animals are quarantined to destination premises until moved to slaughter.

If you are using the Tattoo (on registered cattle) as their ID, Registration Papers must be submitted with CVI's.

MOST OFTEN USED ANIMAL STATEMENTS FOR CVI'S (LG ANIMAL PG 1, SM ANIMAL PG 2)

ANIMAL ID'S

Can be entered on the CVI. For Dairy & Lg #'s of Lg. Animals being transported, you can continue to list ID's or AIN's and submit the spreadsheet to the ICVI email address. Please reference the CVI # when you email the spreadsheet.

SMALL ANIMAL STATEMENTS

RABIES STATEMENT (for animals under 12 weeks of age – required by Pennsylvania())

All animals in this shipment have not been exposed to rabies within 100 days of exportation and did not originate from an area under quarantine for rabies.

For Entering Rabies Info in the VET-CVI platform, please fill in the "text box":

Once the animal is created, go in and select the animal and then "add test"; select "vaccinations" and fill in text. The vaccine information can be entered directly in to the text box

PUPPIES

Need Weather Acclimation Statement

i.e. I Verify That The Puppy(S) listed on this CVI has Been Acclimated To A Minimum Of 10 Degrees F And A Maximum Of 90 Degrees F. No Parasites Seen. Vet Did Not Give Lepto Vaccine In The Best Interest Of This Puppy.

All Vaccinations & Anthelmintics Given Under Veterinary Supervision. Fecal Negative

To The Best Of My Knowledge, These Puppies Have No Evidence Of Internal Or External Parasites, Including Coccidiosis & Ear Mites But Excluding Fleas & Ticks. In My Professional Opinion, These Puppies Do Not Need To Be Vaccinated For Leptospirosis At This Age. All Of The Adults Are Vaccinated For Leptospirosis, There Is Strict Sanitation Protocol, And There Is Stringent Rodent Control. All Vaccinations & Anthelmintics Given Under Veterinary Supervision. Bronchishield Oral(Ser#E029412/Exp 03/21/2023); Duramune Max5 Dappv Ser#E01778s/Exp 09/08/2022); Neopar(Ser#7297/Exp 07/02/2024); Fecal Negative.

Other Examples of Vaccinations/Treatments given on Puppies (for Florida, Hawaii, etc)
